KINGSLAND TERRACE CONTINUING CARE HOME TYPE B

The "Heart of Excellence"

What is Kingsland Terrace (KLT)?

- ♥ KLT - a 'Type B' continuing care home (formerly known as 'designated supportive living') - opened in February 2016 in Calgary, Alberta.
- ♥ KLT provides an innovative and unique 'supportive living' model of care and support services for individuals living at the facility.
- ♥ Built in collaboration with the Government of Alberta, KLT provides a safe, home-like environment for individuals whose care and service needs might not otherwise be fully met in more "traditional" supportive living or long term care environments.
- ♥ Located on 68th Avenue SW and in proximity to Intercare's Chinook Care Centre, KLT is 'home' to twenty-four (24) younger adults ('residents') who are all under 65 years of age.
- ♥ **All residents living at KLT have been diagnosed with a type of a neurodegenerative disease for example:**
 - ◇ Huntington's Disease (HD)
 - ◇ Multiple Sclerosis (MS)
 - ◇ Brain Injury
- ♥ KLT residents are supported around the clock (24/7) by a client-centered care team that is made up of staff from both Intercare and Assisted Living Alberta (ALA).

Kingsland Terrace (KLT)

- ♥ KLT provides its residents the ability to continue to live within a community neighborhood setting and maintain a sense of independence and control over their lives, while also receiving the supports that they require through care and services provided at the facility such as 24-hour monitoring, emergency response, security, nursing care and services, housekeeping, meals and life-enrichment activities.
- ♥ Access and admission to Intercare's publicly-funded Long Term Care and Supportive Living facilities must be completed through Assisted Living Alberta (ALA)/Transition Services (TS).
- ♥ Individuals are admitted to KLT through ALA/TS.

If you would like further information, or have questions about KLT, please contact the KLT's Licensed Practical Nurse (LPN) or Site Administrator at:

- ♥ Main Number: 403-291-0499
